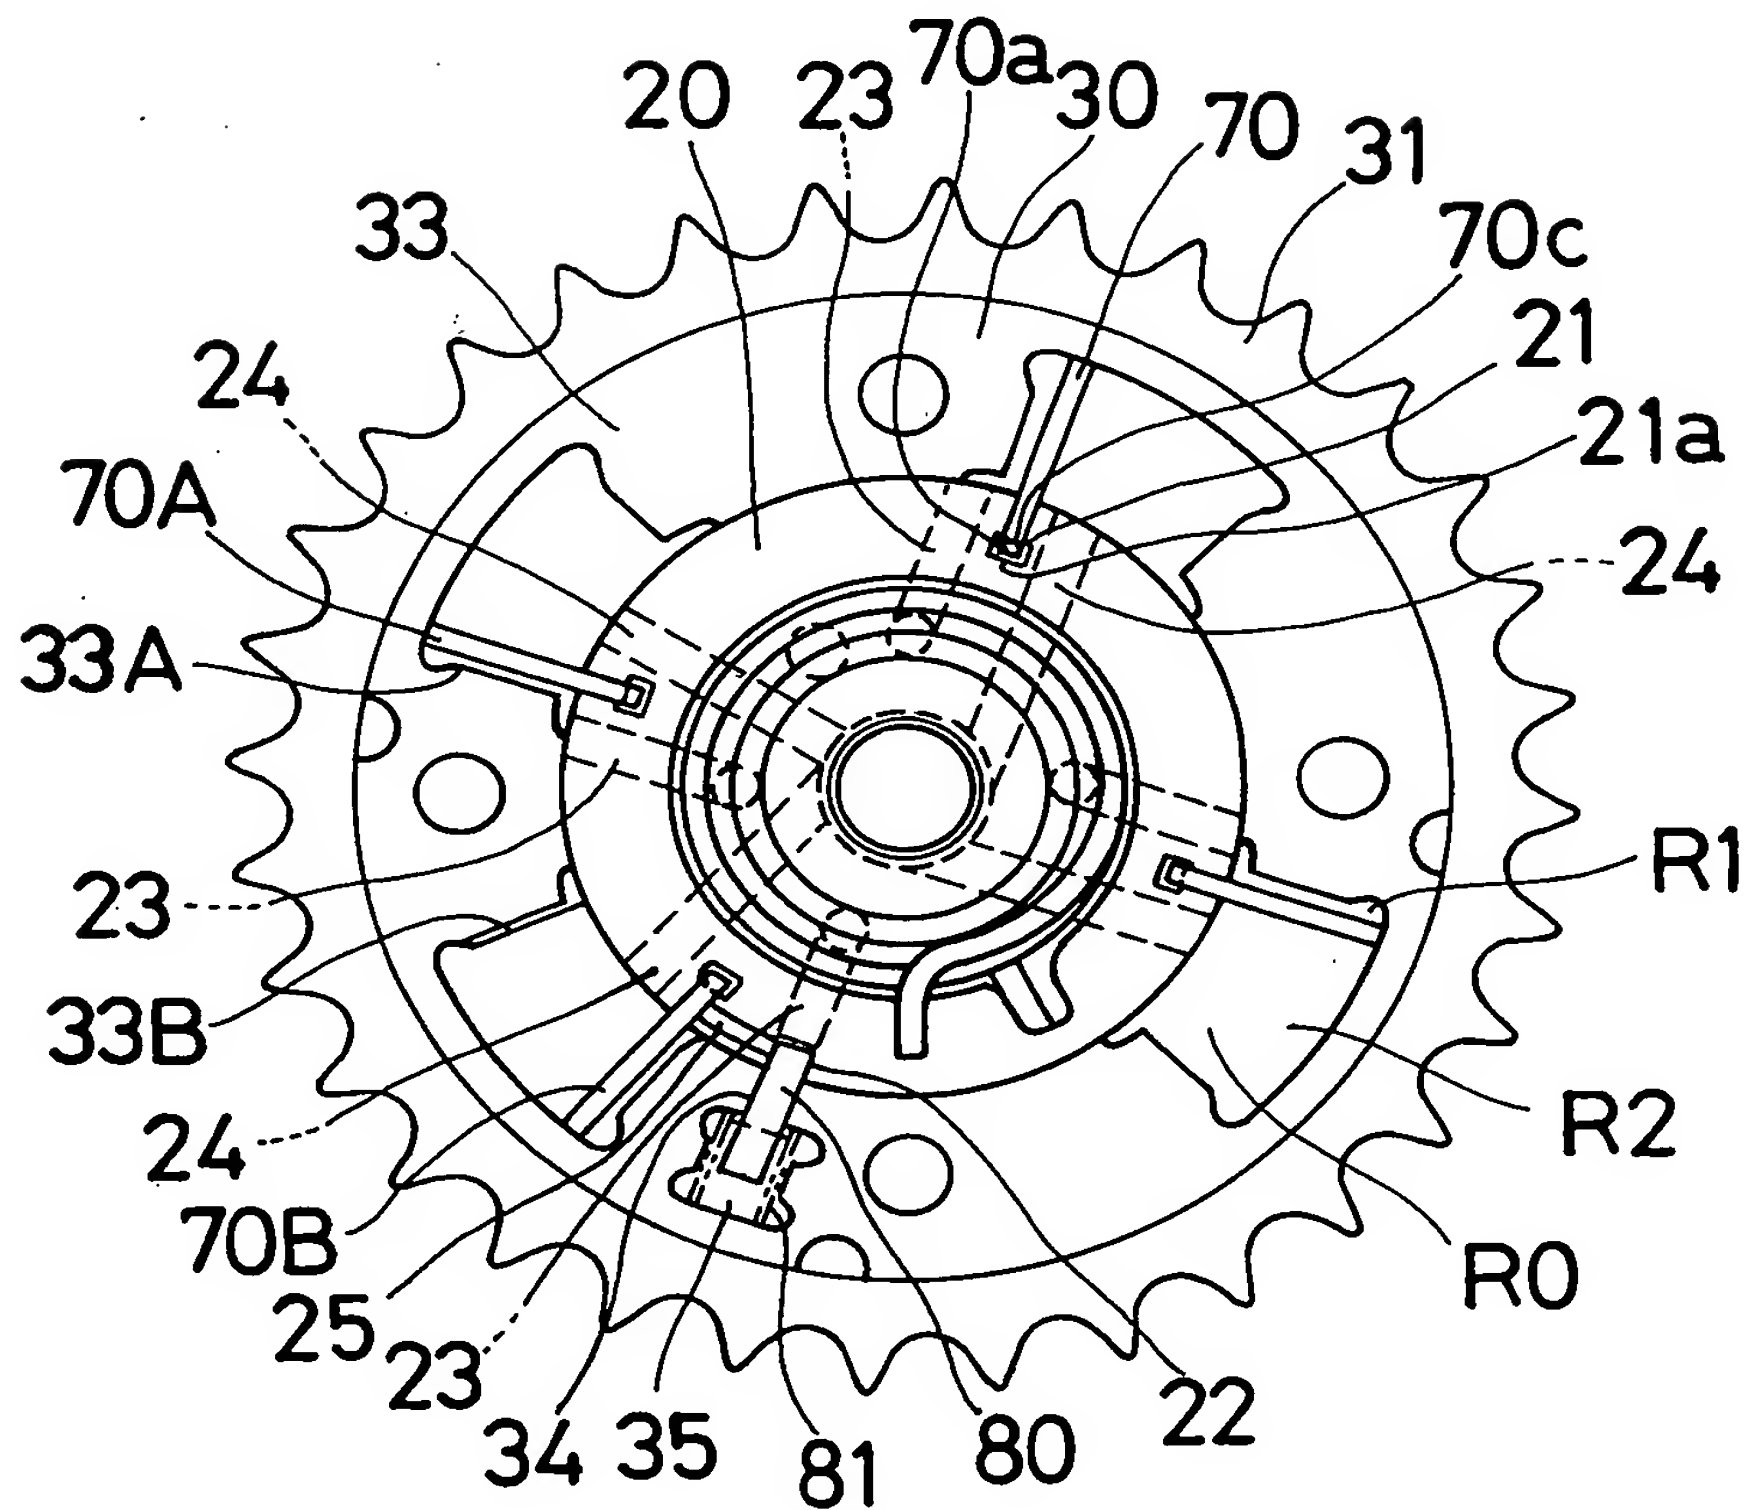

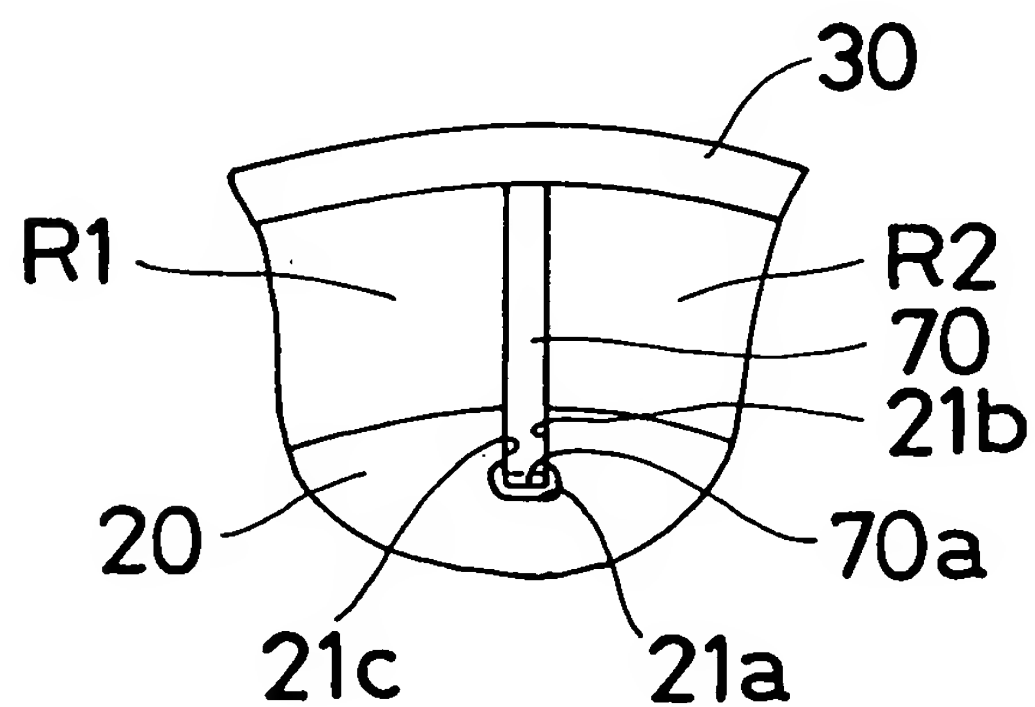

Fig. 3

[illegible]

A diagram of a rectangular block. An arrow labeled "mounting load" points downwards to the top center of the block. To the left of the block, a vertical double-headed arrow is labeled "H", indicating the height. Below the block, a horizontal double-headed arrow indicates the width.

A diagram of a rectangular block. A vertical arrow labeled "mounting load" points down to the top center of the block. To the left of the block, a vertical double-headed arrow is labeled "H", indicating the height. Below the block, a horizontal double-headed arrow is labeled "L", indicating the length.
